

NY Highways Ltd ensure that robust environmental management is integral to how we manage, operate and deliver our business and is embedded into our culture and values. We understand our operations may have a significant impact on the environment and the communities in which we work, and we will manage this impact by:

- Demonstrating continual improvement through the implementation of our Integrated Management System (IMS) and enhanced environmental performance.
- Identifying and adhering to relevant Compliance obligations.
- Supporting our employees and stakeholders in delivering our environmental policy, through training, involvement, developing solutions and innovation.
- Using our IMS as a framework for setting our environmental objectives.
- Identifying and managing our significant environmental impacts and working to eliminate environmental incidents.
- Prevention of pollution.
- Encouraging reuse and recycling of waste materials.
- Understanding our carbon impact and developing plans to reduce it.
- Seeking opportunities for Biodiversity Net Gain (BNG) throughout the network.
- Working with our customers and supply chain to minimise pollution, reduce resource consumption and wastage.

Jamie Crumlish
Managing Director
